

Fire Safety Policy

We state that:-

We 'UCC' recognize that a major fire could have a devastating effect on our business, and hold fire safety as primary concern and it's committed to creating future free of incident and injuries, where;

- safe guard people, property;
- undertake fire risk assessments for the identification of risk from fire;
- respond appropriately where informed of risk;
- priorities works and actions required for the reduction of risk;
- Implement works as directed in accordance with the risk management;
- monitor progress and completion of remedial works identified through fire risk assessments;
- no compromise on fire safety;
- Provide guidance and advice on the identification and management of risk from fire;
- ensure suitable fire risk assessments are undertaken by appropriate persons or
- Competent contractors;
- undertake interim fire safety risk assessments where required;
- allow demonstration of compliance to the Fire Safety Provision for construction Works Site - QCDD requirement;
- enable the programming of improvements in the provision of fire safety;
- adherence to " No Smoking policy" throughout project, facility and yard;
- We have a well-trained and fully competent workforce who actively contributes to the safe planning of their work to prevent fire;
- our commitment to safety and long term health contributes to making us the employer of first choice;
- undertake the Fire safety Plan to promote awareness to reduce the risk of fire-related incidents and injuries;
- Enable adherence to permit to work system related to hot work.

The likelihood of fire can, however, never be totally removed. We will, therefore, also ensure that we have suitable fire detection, warning and protection measures in project, facility and yard. We recognizes the importance of discharging all its statutory obligations and duties. Our minimum fire safety obligations are those required by relevant legislation and authoritative guidance.

We will take appropriate steps to meet, and in many cases enhance these requirements. The Project Management fully endorse this Policy. They will ensure that a documented fire prevention and control procedure and designated fire safety plan are maintained, containing the arrangements and organizational details of how these requirements will be achieved.

We will ensure this policy is periodically reviewed to ensure it remains legally compliant, achievable, relevant and credible.
